

# STACK-PAK

## ENTICE YOUR CUSTOMERS!

The Stack-Pak is the best of both worlds - it has a board base for a premium branded or eco look, and a clear plastic lid for superior product presentation. A tray option is also available which can be used to create a separate compartment within the same package. This is ideal for separating items, such as meat and rice, or separating salad from toppings. There is also a handy fill line marking on the base to assist when using the Compartment Tray.

The sturdy design allows for several boxes to be stacked on top of each other, so it is perfect for takeaway. This is an advantage for pre-packed salads on display, as shelves won't need to be re-stocked as often during busy service periods.

The lids are one-size-fits-all which is convenient and minimises stock holding, and the bases are available in a range of sizes which can be custom printed to bring your branding to life.

DESCRIPTION	ITEM CODE	VOLUME (ML) TO TOP/TO FILL MARK	SIZE (MM)	QTY/CTN
